

Mobile Manager 5.1

Extensions for Microsoft Dynamics Retail Point of Sale Products

Mobile Manager seamlessly integrates and adds essential functionality.

New West's power packed Mobile Manager 5.1 is everything you need for a fully mobile retail operation. This amazing package gives companies power over data management to increase knowledge and business advantage. Enhance your competitive edge with real time inventory management. Maximize productivity and increase efficiency easily with wireless.

Mobile Manager 5.1 includes Mobile Inventory Count, Mobile Purchase Order, Mobile Work Order, Mobile Transfer, Mobile Label Printing and Mobile Item Manager. Mobile Manager 5.1 is optimized and fully functional back office terminal that works seamlessly with Microsoft Dynamics POS products.

- Real-Time and Offline Modes
- Store & Forward Batch Mode
- Offline Inventory
- Offline Purchase Order
- Offline Transfers
- Mobile Point of Sale Terminal
- Real Time Wireless and/or Batch Mode
- Compatible with MS POS & RMS

MOBILE MANAGER 5.1

Go online, offline, store and forward information. Manage your inventory better than ever before with our complete inventory management solution.

Retailers can now have a complete inventory management system that integrates with RMS, POS and New West's Mobile Cashier. Multiple devices can be used simultaneously in various locations – all communicating in real time.

With either store and forward offline or wireless real time inventory management, retailers can have accurate inventory data, identify issues, and stock levels.

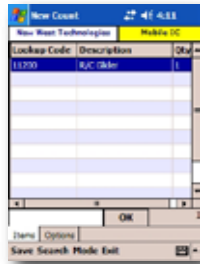

- Mobile Item Manager
- Mobile Label Printing
- Mobile Physical Inventory Count
- Mobile Purchase Order
- Mobile Transfer
- Mobile Work Order, Quotes, Layaways, Gift Registry

Mobile Physical Inventory Count

Complete inventory management with real time updating! From receiving new products to inter-store transfers and inventory adjustments. Mobile Manager will successfully manage your inventory.

- Add, Edit, & Count Items
- Create Aliases
- Inventory Counts

Mobile Item Manager

Convenient for outdoor locations or warehouses. Scan new inventory and easily add it to the database. Make corrections on existing inventory easily. Use with Mobile Inventory Count, and add new products while counting on-hand quantities.

- Create New Items While Mobile
- Edit Item Details
- Set Sale Dates
- Real-Time Updates

Mobile Transfers

Manage inter-store inventory transfers. Create and receive transfer orders for easy record recall and a simpler shipping and receiving.

- Transfer Inventory Between Stores
- Edit Existing Orders
- Recall and Redirect Transfers
- Edit Item Cost Upon Receipt
- Search By Item, Location, Supplier

Mobile Work Order, Quotes, Layaways, Gift Registry

Mobile Work Order manages quotes, layaways, gift Registries, and work orders. Real-Time recall and retrieval allow your business to streamline existing processes, reduce customer wait time, build customer satisfaction and loyalty. Barcode printing creates a ticketing system for quick transaction recall from a roaming mobile source. Mobile Work Order takes you through the complete pre-sale process.

- Full pre-sale orders are now mobile
- Speed lines and reduce wait times
